(54) FUEL CELL GENERATING SYSTEM

(57)Abstract:

PURPOSE: To compensate the dispersion of voltage lowering characteristic of a fuel cell.

CONSTITUTION: A fuel cell generating system is constituted to have a parallel number of at least two or more of fuel cells. Connection switching parts are provided between the output parts of the fuel cells and main circuit buses of the same number as the electric parallel number, respectively.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
